Keep your building secure

Take control of who enters your buildings and restricted areas by integrating with your building's access control system.

Guard against intruders

Instantly flag suspicious visitors who appear on watch lists or scan for invalid IDs. Set up discreet alerts and rules depending on the visitor's status.

Customize sign-in flows

Tailor your health questionnaire and sign-in flow by employee or visitor type so you can collect the information you need while handling data securely.

Everything you need to keep your facilities, employees, and data safe and secure.

- Health screening
- Blocklists
- Digital document signing
- Pre-registration
- Workplace contact tracing
- Touchless sign-in
- Employee and visitor logs
- Analytics and reporting
