### Easily deploy across your sites

Rely on a user-friendly visitor and employee registration process that is easy to set up and easy to use for anyone coming through your doors.

### Always know who's on-site

Know how many employees, vendors, and visitors to expect so you can prepare your space. See who is on-site in real-time and keep a record for audits and contact tracing.

### Capture detailed vendor information

Create custom questions for every type of vendor. They get an easy sign-in while you get a detailed visitor log with the information you need.

## Do more with Envoy's workplace platform

Envoy brings everything into a single platform and mobile app that's easy to integrate with the tools you already use.

### Visitors

Welcome guests while keeping people, property, and assets safe.

### Protect

Keep your team healthy and safe at work.

### Deliveries

Manage your office's mail with ease.
