

Envoy for hybrid work

# Make hybrid work seamless

Create a safe, flexible workplace where teams thrive with Envoy's workplace platform.

10,000+ companies create great workplace experiences with Envoy

### Work together

Don't let hybrid work get in the way of working together in-person. Sync your workplace schedule with your co-workers so you can quickly coordinate when, where, and how to collaborate as a team.

### Stay healthy

Have peace of mind that everyone who walks in your workplace is symptom-free and can keep a safe distance. Envoy prevents overcrowding and instills confidence in your team that they're safe at work.

### Flex your space

Whether it's a group on-site, remote meeting, or heads down time, find and book the space you need when you need it. With Envoy, you can assign desks, hot desk, go desk-free, or do all three.

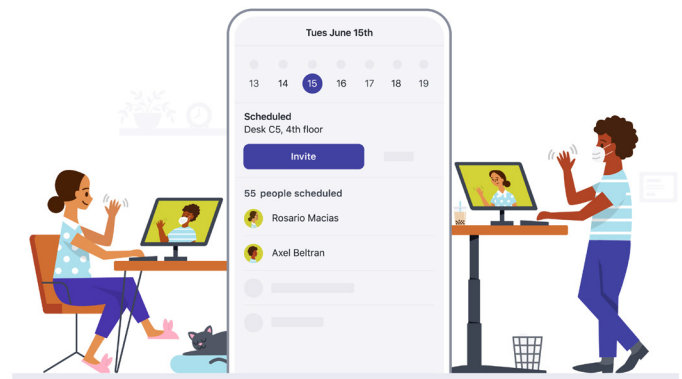

### Anticipate and adapt

Envoy visualizes workplace foot traffic and space utilization, so you can spot trends, make data-informed business decisions, and keep up with the demands of your team.

## The all-in-one platform for hybrid workplaces

- ✓ Workplace scheduling
