Envoy makes workplaces work better

Bring people together

Don't let hybrid work get in the way of working together. Help employees coordinate when, where, and how to collaborate with schedule sharing and desk and room booking.

Flex your space

Whether it's a group on-site, remote meeting, or heads-down time, find and book the space you need when you need it. You can assign desks, hot desk, go desk-free, or do all three.

Safeguard your space and everything in it

Know who's coming on-site and collect the information you need to keep your workplace safe, healthy, and compliant with regulations.

Anticipate and adapt

Envoy visualizes workplace foot traffic and space utilization, so you can spot trends, make data-informed business decisions, and keep up with the demands of your team.
